für viele an der volkswirtschaftslehre interessierte menschen ist das teilgebiet das üblicherweise als makroökonomie bezeichnet wird und sich mit den gesamtwirtschaftlichen zusammenhängen befasst von mit abstand größtem interesse dies liegt nicht zuletzt darin begründet dass die in diesem gebiet behandelten fragestellungen von jedermann als für die wirtschaftspolitik unmittelbar praktisch bedeutsam erkannt werden deshalb liegt es nahe in einem lehrbuch über gesamtwirtschaftliche zusammenhänge wichtige wirtschaftspolitische problembereiche in unmittelbaren zusammenhang mit der makroökonomischen theorie abzuhandeln damit ist das lehrbuch nicht nur für angehende volkswirte von interesse sondern zudem auch für solche leserinnen und leser die sich etwa als studierende der betriebswirtschaftslehre der ingenieurwissenschaften oder anderer studiengänge in einem für sie noch zumutbaren aufwand kenntnisse über das gesamtwirtschaftliche geschehen mit unmittelbarem anwendungsinteresse aneignen wollen

in economic logic mark skousen offers a step by step approach to economics showing how microeconomics and macroeconomics are logically linked together the fully revised sixth edition introduces a major breakthrough in macroeconomics a top line in national income accounting called gross output also included a powerful four stage universal model of the economy a new growth diagram a new diagram of the optimal size of government and new alternatives to the standard aggregate supply and aggregate demand curves economic logic is also the first and only textbook to begin with a profit and loss income statement to demonstrate the dynamics of the economy to aid students in comprehending the economic lessons many other disciplines are integrated into the study of economics including finance business marketing management history and sociology

this book is set against the assumption that humans unique feature is their infinite creativity their ability to reflect on their deeds and to control their actions these skills give rise to genuine uncertainty in society and hence in the economy here the author sets out that uncertainty must take centre stage in all analyses of human decision making and therefore in economics uncertainty and economics carefully defines a taxonomy of uncertainty and argues that it is only uncertainty in its most radical form which matters to economics it shows that uncertainty is a powerful concept that not only helps to resolve long standing economic puzzles but also unveils serious contradictions within current popular economic approaches it argues that neoclassical real business cycle or new keynesian economics must be understood as only one way to circumvent the analytical challenges posed by uncertainty instead embracing uncertainty offers a new analytical paradigm which in this book is applied to standard economic topics such as institutions money the lucas critique fiscal policy and asset pricing through applying a concise uncertainty paradigm the book sheds new light on human decision making at large offering policy conclusions and recommendations for further theoretical and applied research it will be of great interest to postgraduate students academics and policy makers

they said it couldn t be done austrian economics is so different they said that it couldn t be integrated into standard neo classical textbooks consequently college students learn nothing about the great austrian economists mises hayek schumpeter professor mark skousen s economic logic aims to change that based on his popular course taught at columbia university skousen starts his micro section with carl menger s theory of the good and the profit and loss income statement to explain the dynamics of the market process entrepreneurship and the advantages of saving

mainstream textbooks present economics as an objective science free from value judgements that settles disputes by testing hypotheses that applies a pre determined body of principles and contains policy prescriptions supported by a consensus of professional opinion the economics anti textbook argues that this is a myth one which is not only dangerously misleading but also bland and boring it challenges the mainstream textbooks assumptions arguments models and evidence it puts the controversy and excitement back into economics to reveal a fascinating and a vibrant field of study one which is more an art of persuasion than it is a science the economics anti textbook s chapters parallel the major topics in the typical text beginning with a boiled down account of them before presenting an analysis and critique drawing on the work of leading economists the anti textbook lays bare the blind spots in the texts and their sins of omission and commission it shows where hidden value judgements are made and when contrary evidence is ignored it shows the claims made without any evidence and the alternative theories that aren t mentioned it shows the importance of power social context and legal framework the economics anti textbook is the students guide to decoding the textbooks and shows how real economics is much more interesting than most economists are willing to let on
